

EXCITING CHANGES ARE HAPPENING AT BALI BUDA !

We are progressively changing our name to **Bali Bunda**. We feel that this new name **Bali** for where we live and **Bunda** for **Mother** better captures our mission to run a business that helps reduce our impact on the planet and show our deep respect for **Mother Earth**. **Bali Bunda** also better reflects our nurturing and caring attitude towards our customers, staff and suppliers. We want **Bali Bunda** to help people live a more health conscious and delicious life. The name **Bali Bunda** is inclusive and unlimited in its ability to create a bridge between local organic farmers and local consumers.

The Bali Buda restaurant and store began in 1994 with a passion for bringing the best quality, organic food we could find to people looking for healthy ways to feed themselves and their families. You can now find Bali Buda in four locations around Bali : Ubud, Kerobokan, Bukit and Sanur. Our first **Bali Bunda** is now open in Munggu and next in Batubulan.

*"Brands do evolve over time, and that's what's happening to us, we're confident that **Bali Bunda** is right for our customers, right for the environment and right for our way of doing business."*

Says owner Brenda Ritchmond.

A lot of other things are happening at **Bali Bunda**. We have stopped selling plastic bottled water. We're now offering our best-selling products in bulk containers so you can buy as much or as little as you need.

We are switching over to using biodegradable packaging. Our staff is getting on-going training so they can offer just that much better customer service. We are sustainably sourcing new products for our shops. We are also expanding our national and international sales.

Some things won't be changing. We will still use only the best quality olive and coconut oil in our handmade products. We still source and sell almost 100% chemical and pesticide-free produce. Our soy, rice and corn is GMO-free. Our friendly staff will still welcome you to our stores and restaurants with a smile. You will still find the same healthy, delicious food and meals that we are famous for.

When you stop by one of our stores or restaurants, check out our newest environmental and customer-friendly initiatives and spread the word !
